Posh built in

Every Posh Pod we create is a fusion of style and quality, satisfying the senses, and underpinned with the assurance of sound construction and proven materials, inside and out.

And if you want Extra Posh

You can choose some extra features to make your Posh Pod really special – inside and out!

Solar panels

Reduce your energy bills and your carbon foot print by choosing to go solar. No matter the size or energy requirements, we have solar solutions to suit every need.

Live green roof

Help the environment and give your pod a natural look by installing an eco-green CO2 absorbing living roof.

Smart pods

Control everything from a single console

- Lighting and controls
- Blind and shading systems
- Temperature controls
- Networking and remote management
- Audio and HD video distribution
- Home cinema systems
- Security systems, surveillance and intercom

Integrated Bluetooth speakers

Fill your Posh Pod with your favourite music. Great for relaxing, focusing or entertaining – just connect and enjoy.

Air conditioning

Whatever the weather, make yourself comfortable with our flexible air conditioning to get the temperature and humidity just right.

Timber cladding

All of our Posh Pods look great in solid wood cladding, blending in perfectly with the natural setting of your garden.

A renewable and durable natural material, wood offers excellent insulation and soundproofing qualities, and is pre-treated to give extra weather resistance to keep your Posh Pod as sturdy and snug as the day it was built.

We carefully select our timber for quality and appearance, with warm organic tones that naturally fade to muted silvery shades, or enhanced with long lasting colour treatments to give your Posh Pod an extra personal touch.

Cedar is a popular wood for outdoor use, giving natural variations in colour to make your Posh Pod look truly unique.

ThermoWood is a special heat treated softwood, with enhanced anti-fungal properties.

Siberian Larch is a beautiful Russian softwood, which looks similar to pine but with fewer knots.

Flooring

Our range of oak laminate flooring is the perfect finish to the interior of your Posh Pod. Durable and easy to clean, it blends a natural wood grain finish and sympathetic colour shades to add depth and texture to your garden retreat.

Polyroof

Polyroof 185 is the UK's market leading in-situ fibreglass roofing system. Some ten million square metres have been laid in domestic, commercial and industrial applications since the product was first launched back in 1984. It is widely acknowledged by professional specifiers as a quality benchmark and is specified for refurbishment and new build by Housing Associations, Architectural Practices and Local Authorities throughout the country.

Seamless, cold liquid applied membrane

30 year durability rated by the BBA

20 year insurance backed guarantee

Impact resistant & vandal resistant

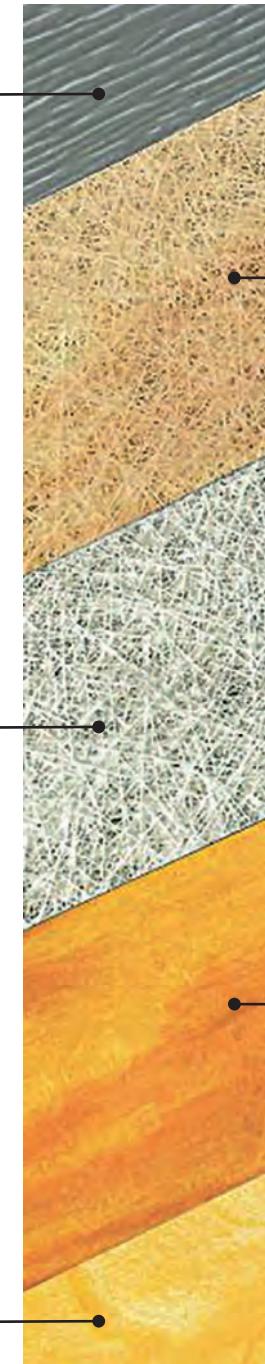

Warm or cold roof specifications

polyroof
advanced liquid roofing

FLEXI-RESIN 185C

A unique combination of flexibility, toughness and weather-resistance, exclusive to Polyroof.

FLEXI-RESIN 185B

Exclusive to Polyroof, this resin is flexible and so highly impact-resistant that it withstands a hammer blow without penetration.

Applied between the three component layers it soaks through Polymat layer and chemically bonds them all together to form a single homogeneous membrane.

POLYMAT

A reinforcing glass fibre mat, which gives the system its strength to withstand expansion and contraction forces.

DECKING

18mm Polyroof approved plywood such as Metsä Wood Plywood (Grade II/III or +III/III)

Chloe

modest | concealed | unique

With a petite footprint and carefully placed natural light, Chloe provides a compact and discreet space, perfect for business or leisure use.

Bespoke design

CREATE YOUR OWN POSH POD

The diversity of our Posh Pod family can cater for more uses than we can even think of, but our design process and modular system is flexible enough to enable us to work with you in creating something truly unique.

DON'T BE CONSTRAINED BY SIZE, SHAPE OR FEATURES...

We would love to see how far we can extend the capabilities of the Posh Pod concept – bring us your vision and we'll bring our ingenuity!

SCHOOLS
SOCIAL CLUBS
PUBLIC SPACES

Posh Pods are also an attractive and adaptable option for non-domestic uses.

Stylish and durable, a bespoke or standard Posh Pod would make a perfect clubhouse, visitor information centre or classroom.

Get in touch to explore
the possibilities.

0800 177 7779

hello@poshpods.com

Want to get Posh?

If stylish, durable architecture with natural materials and a high design specification fit your ideal of what a garden room should be then welcome to the Posh Pods family!

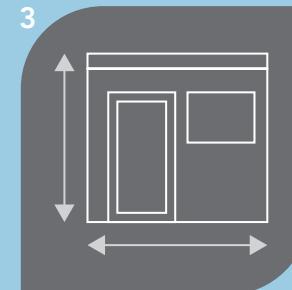

Here's what happens next...

Let's talk about your vision for your Posh Pod.
Call us free on 0800 177 7779 for a chat about the possibilities.

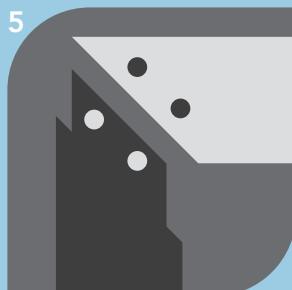

We'll carry out a free site survey, explain the production process and you can choose those finishing touches that make it truly yours.

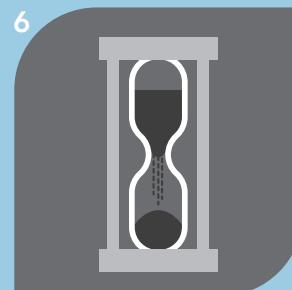

A full specification and plans will give you full assurance that you are going to have the Posh Pod of your dreams.

When you're completely happy with the plans, and have chosen any optional extras we'll book your installation date.

We start our quality controlled, precision construction. Our modular prebuild system means we don't take up too much of your day to install it.

We'll keep you informed of how we're progressing and when to wait in to receive your Posh Pod. The typical lead time is 4 weeks.

Watch your Posh Pod take shape - no mess, no fuss.

Nothing left but to enjoy your Posh Pod!

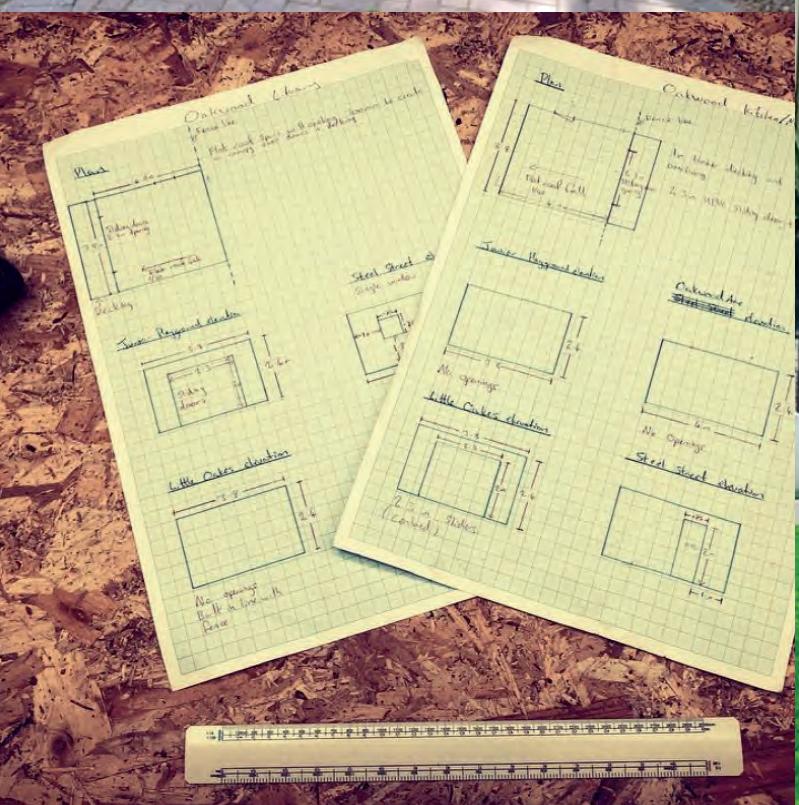

A deposit of 40% of the total will be required at Stage 4, with the balance being payable on completion of the installation.
